Mr. Hilf reported that at the October 27, 1988 meeting, the Board rejected the base bid responses for construction of the Technical Services Center because they were in excess of the combined authorizations for construction of the facility. He was authorized by the Board to rebid the facility and the low bid received was approximately \$250,000 lower than the previous low bid. The total amount of the construction costs for the facility is estimated at approximately 5.9 million dollars.

## FINANCE COMMITTEE

Mr. Ciatto moved, seconded by Dr. Fox, that the audit report for the fiscal year ended June 30, 1988 of the books and records of the Board of Trustees of Middlesex County College, as prepared by the firm of Coopers & Lybrand, be accepted and that the following recommendations be implemented pursuant to said report:

1. Accounts Payable Documentation Should Include Evidence of Date on Which Goods and Services Were Received

During our testimony of purchase/disbursement records for the year ended June 30, 1988, we noted that the date on which goods and services were received was not readily apparent. This lack of documentation makes it difficult to assess whether a proper cutoff had occurred in recording the accrued liabilities of the College.

## Management Response:

Management is currently reviewing the implementation of a shipping/receiving/accounts payable system which is compatible with the mainframe and existing communication resources to that facility. That program, as planned, will provide information to requesting departments on their computer terminals, with data on the status of their purchase/ receipt and payment. The current financial program does provide the requesting departments with lists of outstanding orders.

The year end processing problem continues due to scheduling of 10-month chairpersons and will recur. A number of academic department chairs are not available as of June 30 and sometimes throughout the entire summer. The concerns of the requesting departments justifies the practice of waiting for user certification prior to payment. In some cases partial payments are authorized to vendors based on the percentage of the total value of the order received so as to avoid undue hardship to the vendor.

## 2. Payroll Procedures Should be Improved

During the course of our payroll testing, we noted employee termination notices for hourly employees were not consistently maintained in the Payroll Department. The Payroll Department should insist on receiving such notification to prevent improper payments from being made.

During our examination of College work study employees files, we noted a lack of consistent documentation on employees time sheets. We recommend uniform time sheets which include student name, social security number, time sheet period and appropriate budget code be completed by each College work study employee. More complete information will aid in the monitoring of authorized award limits.

## Management Response:

Documentation currently received from the Personnel Department from part-time hourly employees does include the start and termination dates for each individual. Based on the recommendation above, a file will be created based on the termination date of each individual. That file will be tested for the H4L payroll to insure that upon receipt of time sheets beyond the authorized date, the Payroll Department will notify the Personnel and the employing departments that no authorization for continued employment is available unless corrective steps are taken.

As to the quality of data received for students employed under the College Work Study Program, the Admissions and Financial Aid Departments and the Payroll Department will reinstitute a prior procedure for pre-addressed time sheets. Due to the volume of students involved the procedure was changed. Corrective action will be taken with the use of computerized devices in order to accommodate the large volume of routine pre-addressed data for each employee.

# 3. Policies Dictating Authorization Levels for Cash Disbursements Should be Developed

Currently, there is no policy governing authorization limits for check signators. To strengthen internal controls and enable management to more effectively monitor College expenditures, we recommend that dollar limits be set for each individual authorized to sign checks and that compliance with this policy be reviewed by the Internal Auditor. VOL. XXXIX-138 11/22/88

## Management Response:

Management is in agreement with the recommendation of the auditor. Previously a procedure had been developed and was postponed due to the leave and retirement of the prior controller and the employment of a replacement controller. That procedure is currently being reviewed based on the available number of signatories and the levels of authorization for which more than one signature would be required. In addition, procedures and controls of the use of the check signing device will be reviewed to insure that similar criteria is developed for the use of that device.

# 4. Financial Data Should Be Controlled By The Finance Division

In order to ensure the integrity of financial data and sustain a greater degree of continuity in reporting, financial accounting programs should be controlled in the Finance Division and the resulting data should be made available through the mainframe to operating departments.

#### Management Response:

Stand alone financial application software is currently being considered which includes effective encumbrance procedures and compliance reporting anticipated under Government Accounting Standards Board guidelines. The standardized programs are being reviewed with priority for internal controls, check writing, data reporting independent process and data communication to the mainframe.

5. Procedures to Review and Remove Old Outstanding Items in the Bank Accounts Should be Established

During our review of the cash account bank reconciliations for the student activities fund, agency fund and restricted fund, we noted various checks which have been outstanding for up to two years. We recommend that procedures be established to identify items which have not been presented for payment for an extended period of time and restore such items to cash.

#### Management Response:

Policies are in place to review bank reconciliations for old, outstanding items. With the hiring of the new controller these procedures will be enforced and implemented. The controller authorized the cancellation of all checks dated prior to December 1987.

## 6. Procedures for Improving the Collection of Student Accounts Receivable Should be Established

During the course of our review, we noted that a significant amount of effort by the internal auditor is directed to the collection of student account receivables. The attention needed for daily collection requires a dedicated resource to insure that all amounts due to the institution are realized.

Management Response:

Management agrees with the recommendation of the auditor and has developed a job description for the employment of an individual dedicated to the collection of student and other receivables.

After discussion, the motion was unanimously carried.

Mr. Ciatto moved, seconded by Dr. Brinson, for adoption of the following resolution:

WHEREAS, the 1988-89 operating budget for Educational and General purposes totaling \$30,121,438.00 was allocated to specific line items based on the organizational structure and nature of departments then in effect; and

WHEREAS, a list of transfers of line item expenditures for the 1988-89 operating budget is herewith presented in order to amend the budget, based on the organizational structure, shift of instructional priorities and nature of the departments currently in effect,

NOW, THEREFORE, BE IT RESOLVED that the attached list of line item transfers for the 1988-89 current expenditure budget for Educational and General purposes be adopted. The sum total of said line item transfers being the same, therefore, having no effect on the total of the budget as adopted by the Board of Trustees originally in the amount of \$30,121,438.00.

After discussion, the motion was unanimously carried.

> David Bourke Douglas Boninsegna Christiana Barone

Mr. Ciatto moved, seconded by Mr. Meszaros, that a grant equivalent to tuition and course fees for students enrolled as seniors in the Dental Hygiene Program be provided for the winter and spring semesters as scheduled. After discussion, the motion was unanimously carried.

Mr. Ciatto moved, seconded by Dr. Brinson, that legal fees to the firm of Wilentz, Goldman & Spitzer be approved for legal services rendered by said firm in the matter of Bozowski vs. Middlesex County College in the amount of \$1,861.81.

Explanation: The claim against the College was covered by the Trustee Liability insurance. Legal fees paid by C.N.A. were \$6,166.53 for services billed in the amount of \$8,028.34 leaving a shortfall in the amount of \$1,861.81. After discussion, the motion was unanimously carried.

PRESIDENT'S OFFICE

MEMORANDUM

DATE: November 22, 1988

TO: Members of the Board of Trustees

FROM: Flora Mancuso Edwards, President

SUBJECT: Report to the Board--October 27, 1988 to November 22, 1988

For the period October 27, 1988 through November 22, 1988, a great deal of time and energy was dedicated to three major areas.

The first, focusing on the Division of Continuing Education, Community Education and Science and Engineering Technologies, involved the site visit of the evaluation team of the Commission on Higher Education and the concurrent visit of the Accreditation Board for Engineering Technologies to review our engineering technology programs. Both accreditation processes are somewhat unique insofar as the Middle States process of cyclical program review is part of an experimental model and the ABET accreditation process is completely voluntary. Nationally, our College is among only a few hundred with ABET accredited associate degree programs and in the State of New Jersey only four other community colleges have earned ABET accreditation. Both visits, which began with an opening dinner on Sunday evening, November 13, and concluded with the oral exit interviews on Tuesday, November 15, went extremely well. The presence of trustees Coughlin and Muller contributed immeasurably to the success of the opening dinner and the orientation film prepared by Linda Gibson and her staff added an important dimension to the occasion. Most important, however, was the exit interview which, based on the fine self-studies prepared by each Division, confirmed the quality which characterizes our endeavors and assisted us in identifying challenges for the future.

Indeed we have much of which to be proud and it is most appropriate at this time to pause and thank Frank Spano, Warren Kelemen, Anita Voorhees and their faculty and staff for their on-going commitment to excellence which serves as a source of pride to us all. Madan Capoor and chairs of the self-study steering committees - Reggie Luke, Barbara Greene, Tory Salvest and Jerry Shindelman - deserve recognition for all of their efforts in preparing a fine selfstudy. This month the Division of Health Technologies did not fare quite as well. After a series of meetings with the contractor and with Weston Associates on the status of L'Hommedieu Hall, it became apparent by the end of October that the revised completion date of January 15 was highly unlikely. As our confidence level waned, we redirected our energies to the exploration of alternative arrangements for the Spring semester. The program most severely impacted by the contractors' inability to complete the project is the Dental Hygiene Program which has been deprived of its clinical facility for the entire Fall semester. Viewing this as a first priority, institutional energy was directed to the development of alternative clinical sites, in addition to Union County College which is graciously sharing its facility with us on a limited basis this semester. Within a week, we had identified over eight sites with 58 chairs to be used in staggered shifts.

On November 9, Vice President John Bakum and I met with the senior Dental Hygiene faculty and students to provide an update on the current situation and to outline our progress in resolving the critical issues related to the clinical experience for Spring 1989. It was a difficult meeting in which the students expressed their concern and anxiety. On November 11, at a meeting with Weston Associates and our counsel, our fears regarding completion for the beginning of Spring were confirmed. However, prospects for the Spring improved when we located a vendor for equipment rental and proceeded to make arrangements for the installation of a temporary dental clinic with 25 chairs and x-ray lab in Bunker Lounge. These arrangements which were just finalized on Monday, November 21, will provide sufficient clinic space beginning January 3 to insure senior students completion of all clinic requirements in time for May Boards and will also provide the option for those students planning on taking July Boards to extend their clinical hours through the month of June. In addition, the temporary clinic will provide adequate space for freshmen to begin their clinical experience as scheduled.

Because the dental clinic was unavailable for use this semester due to the contractors failure to deliver the building as scheduled, a resolution is before you this evening to consider a grant-in-aid to senior Dental Hygiene students. All in all it has been an extraordinarily difficult process. We owe John Bakum, Marilyn Keener, Elaine Buscemi and her faculty a debt of gratitude for their flexibility, understanding and perseverance in this difficult period. Special thanks is due Paul Hilf, Donald Drost and John Mondano for their extraordinary efforts in handling the physical arrangements necessary for the temporary facilities. It shows what can be accomplished when people truly care. Members of the Board of Trustees November 22, 1988 Page 3

In the area of Nursing, in light of recent board scores, a process has been developed this semester to study the organization of the Nursing Education Program with the dual objectives of insuring academic excellence and maintaining continuity in the provision of nurses to the hospitals and other health care facilities in Middlesex County. A plan will be developed in the coming weeks to be shared with you at the December Board meeting which reflects our commitment to quality and to the needs of present and future students within the context of the health care needs of the community we serve.

In the area of long range planning, work on the 3E Commission continues on schedule with meetings of the task forces on Quality and Partnership and a special breakfast meeting with Jerry Minor, Assistant General Manger of the Ford Motor Company, to review alternative paradigms for planning and development. Earlier today, the College served as a downlink site for a national teleconference on the report of the Future of the Community College.

In the area of institutional advancement, the week of November 7 marked the kick-off for the newly created Center on the Dimensions of Prejudice Genocide and the Holocaust. The evening of November 9 saw a candlelighting ceremony to commemorate the 50th anniversary of Kristallnacht. The program drew well over 600 people from the College and the community we serve. It was a moving experience and sent an important message to all people of good will regarding the importance of safeguarding the fundamental principles of human rights.

Other institutional advancement activities included the conference on Bio-Medical Ethics which we hosted on November 9, a luncheon for new members of the Foundation held on the same day, followed by an annual meeting of the Foundation, held on November 11.

On-campus activities this month included an employer breakfast sponsored jointly by the Business Division, the Office of Counseling and Placement and the Office of Cooperation Education. The event was extremely well attended and gave us an opportunity to share the newest developments in curriculum and facilities with co-op and prospective employers of our graduates. The Ford Asset program was recognized on November 21 when we invited students, family, faculty, dealers and representatives of Ford Motor Company to join us in a dinner.

In addition to chairing weekly meetings of the Executive Council and teaching my class, on November 10 we held an all day retreat of the Executive Council focusing on a variety of short term and Members of the Board of Trustees November 22, 1988 Page 4

long term planning issues. Other on-campus activities this month included meetings with the faculty in the HRI Department, the Marketing Art and Design Department and a meeting with the nursing faculty.

Off-campus activities this month included a meeting of the Board of the 200 Club, dinner with Dr. Fred Kreisler to discuss a variety of statewide initiatives, breakfast with Jim Marino, and a staff development conference for academic chairs held on October 27 and 28.

A bit further off-campus, I attended a meeting of the Board of Directors of AACJC in Washington.

Finally, tonight at our annual meeting, I was pleased to present to the Board the President's Annual Report for 1987-88. The report reflects the shared pride in our achievements of this past year and the enthusiasm to meet the challenges which lie ahead.
