

MCC Faces Tuition Increase

\$12.2 Million, Budget Up 15%

President Harris speaking out during the State of the College Address.

Grapplers Tops

Middlesex County College Wrestling Team Ranked 4th In Nation, No. 1 In The East

Middlesex County College is currently ranked 4th in the initial poll of the National Junior College Athletic Association. North Idaho Junior College of Coeur d'Alene, Idaho - defending Junior College National Champions are ranked first.

Middlesex County College's nationally ranked team has a current season record of 8-1 and was riding a 26 match win streak before last Saturday's match with Gloucester CC. The powerful Colts, coached by John Sacchi are the defending New Jersey Junior College State and Mid-Atlantic District Champions and served notice of their potential power early in December by easily winning the 5th Annual Roadrunner Invitational in Sewell, N.J. placing 8 men in the finals and earning 4 individual titles.

In running up their current season record the Colts sport six undefeated wrestlers (prior to last Saturday's match).

118—Mike Marino (Capt.), So. Kearny, N.J., 8-0. 150—Charles Perez, Fr. Madison Twp., 8-0.

177—Carter Smith, So. Franklin Twp., 8-0. Hwy—Paul Curka, Fr. Edison, 8-0. 190—Dave Coyle, Fr. Sayreville, 5-0. 142—Joe Carchia, Fr. Long Branch, 4-0.

The Colts were on semester break and were idle since January 7th. They returned to the mats on January 24th at 2:00 PM in a home match against Gloucester Community College losing a close decision, 18-12. The Colts then hit the road until February 11th at 8:00 PM, when they host Essex Community College in their last home match of the season.

Highlights of the road trip will include a February 6th meet against Army at West Point and a February 14th Quadrangular meet on Long Island against Nassau Community College, Monroe Community College and SUNY at Delhi. Monroe and Delhi are ranked 1st and 2nd in the Northeast Junior College District and Nassau is ranked 2nd in the Metropolitan District. Middlesex will be hard pressed to defend its #1 ranking in the east during this match up.

The Mid-Atlantic District Championships which includes two year colleges from Pennsylvania, Maryland and Delaware as well as New Jersey will be hosted by Middlesex on Feb. 20, 21st.

by Leslie Burton
A \$12.2 million budget that will mean annual tuition hikes of \$25 for full time students, and a 10 per cent costs increase for part time students, was approved by the Board of Trustees on Wednesday, January 20, 1976. "I regret the necessity tuition increase," said President Harris, "but I find it necessary to maintain a high quality of education."

The 1976-77 budget, up nearly 15 per cent from the present \$10.4 million budget, will be presented to the County Board of School Estimate on February 3.

The new budget scheduled to

take affect July 1, will provide for the enrollment of 7,500 full time and full time equivalent students. The latter term represents the number of part time credits necessary to equal a full time program for which MCC is funded.

To keep an increase of county support to a minimum, the budget includes \$1 million of a \$1.7 million surplus accumulated by the College during the past two years. The surplus resulted when the college enrolled more students than expected in low cost programs, entitling MCC to more state aid. The State still owes Middlesex more than \$568,000 and, as a result, MCC can

count on having \$170,000,000 in the emergency fund. MCC is asking the county for \$4.03 million, a \$185,844 increase from 1975-76.

The state's share of support is still uncertain until an expected approval of a state budget next month.

MCC's new budget includes the same amount of state aid, \$32 million, as it received in 1975-76, but it is possible that the State will cut this amount.

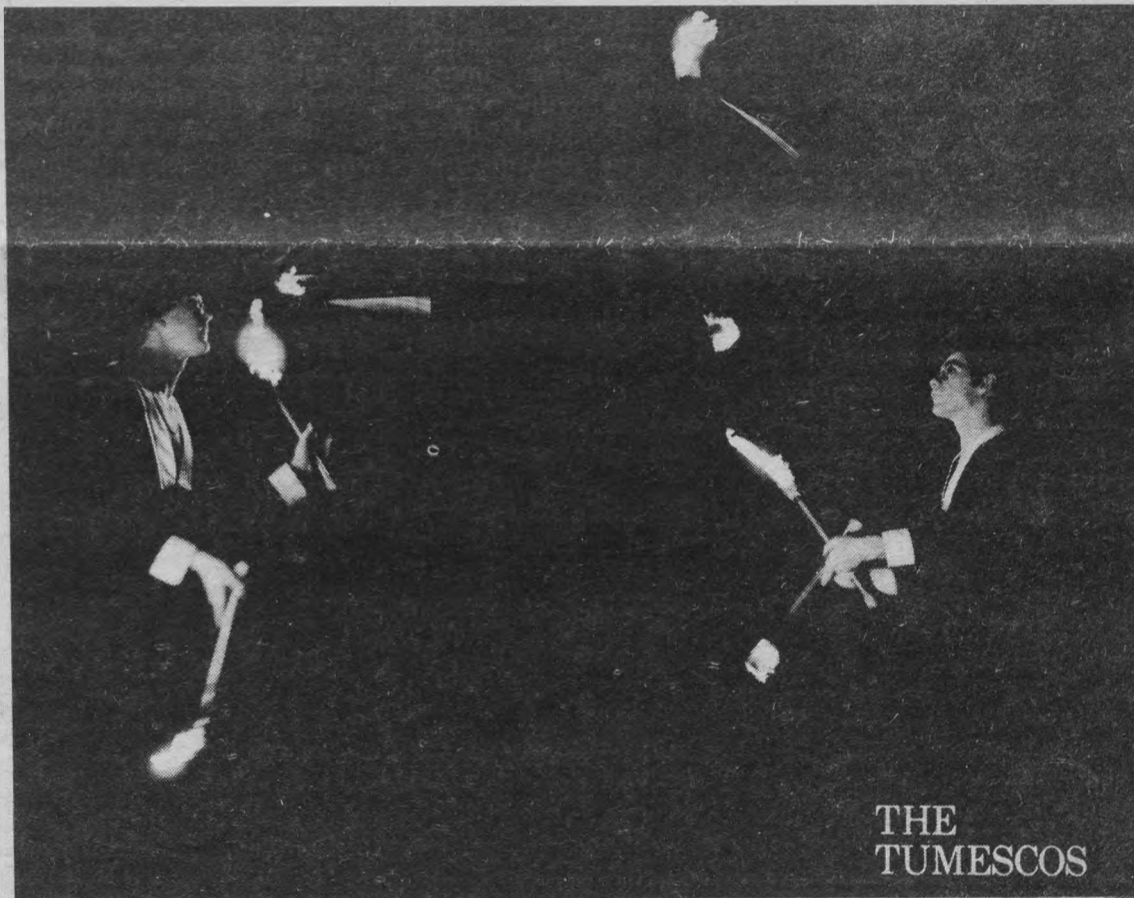

"If the State does cut it we're going to have some serious program cutting," Controller and Vice President of Finance Paul Hilf said last Tuesday. He said that it would be up to the Board of Trustees to make the cuts.

State of the College

Harris Outlines Higher Educational Standards

Students attending Middlesex County College will have to start studying harder but won't be taking as many credit hours if suggestions put forth by Dr. Robert Harris in his State of the College address last Monday are put into effect next Fall.

Before a full crowd of faculty and administrative staff in the College Center Performing Arts Centre, the President outlined his forthcoming recommendations "keeping the quality of education at Middlesex County College at the level it now holds" to strengthen the general education requirements that are presently in effect. Harris'

suggestions are scheduled to be sent to the College Assembly sometime during the next two months. They include the following:

1. Making English I and English II (English Composition) a College-wide requirement instead of left to the individual divisions with a minimum "C" grade for graduation eligibility;
2. A demonstrated proof of a 12th grade reading level prior to graduation;
3. Raising the minimum GPA (cumulative grade point average) for graduation from 1.5 to 2.0.

Harris also is asking the College Assembly to put into

effect the 64 credit-hour limit on degree programs offered as part of the College's programs. Presently on the Physical Distribution Center option in the Marketing Program, the Nurse Education program and the Educational Technology curriculum contain a maximum of 64 credit hours. Other curricula fluctuate between the 67 to 71 credit hour range with Radiologic Technology curriculum having a 73 credit hour requirement, the most of any program offered by the College.

Harris is also asking for the establishment of an Associate Science degree program. The program was originally sub-

mitted to the College Assembly a few years ago and has since been only in the planning stages. The new degree would replace the A.A.S. degree offered to graduates of Health Technologies and Science Divisions.

Harris would like the A.S. program, as well as the 64 credit hour plan, to go into effect in time for the Fall semester.

Harris also mentioned the 12.2 million dollar budget that was subsequently approved by the College Board of Trustees the following evening. Commenting on the financial state of the College, Harris noted that although the new

budget includes a \$25 tuition hike for full-time students, the increase is necessary to keep the College in good financial standing in order for the present operations to continue after next year.

In an interview the following day, Harris noted that he hopes the tuition hike is taken in light of the present opportunities available for students in need of financial assistance.

"I don't want it to seem that we're excluding anyone from obtaining an education by raising the tuition," Dr. Harris commented. "The College will try its best to assist any student who needs financial assistance in order to attend Middlesex."

News In Brief

Tryouts For Upcoming Play

Tryouts for the Performing Arts Department's next production, *The Man Who Came To Dinner*, by George S. Kaufman and Moss Hart, will be held on Wednesday, January 28, at 4:30 p.m. - 6:00 p.m., and again at 7:30 p.m. - 10:00 p.m., at the new theater. Additional auditions will take place on Thursday, January 29, from 7:30 p.m. - 10:00 p.m., at the same place. The play will be performed March 11, 12, 13, 14.

Tryouts are open to all students, faculty, and staff.

Ms. Lynn Winik

Course On Starting And Managing A Business To Be Offered At Middlesex County College

"How to Start and Manage Your Own Business" is the title of a six session course to be offered on Mondays from 7:30 to 9:30 p.m. beginning February 2.

The mini-course is for persons already in or planning a new business venture—including more and more women who are successfully going into business for themselves. Common sense advice and information regarding the essential tools of small business management will be emphasized, including techniques for planning, organizing, and controlling a successful enterprise.

Participants of this program will learn the basic problems and pitfalls in starting and operating a small business and where to obtain assis-

tance when needed. Among the speakers will be successful business entrepreneurs. The program is being sponsored by the Office of Community Services and Special Projects of Middlesex County College, Edison, in cooperation with the Small Business Administration and the Service Corps of Retired Executives.

Persons interested in registering for this course, which has a \$35 registration fee, should contact the College's Division of Continuing Education located in the new Academic Services Building. The office is open on Monday through Thursday from 8:30 a.m. to 10:00 p.m., Friday from 8:30 a.m. to 7:00 p.m., and Saturday from 8:00 a.m. to 12 noon.

Middlesex County College Seeks Part-Time Jobs For Cooperative Education Students

The Cooperative Education Department of Middlesex County College, Edison, is seeking part-time work experiences for students in Accounting; Secretarial Science; Physical Distribution; and Hotel, Restaurant, and Institution Management curricula.

"The Cooperative Education Program at the College has been most helpful to companies and students alike," stated Dr. Lloyd Kalugin, Chairperson of the Department. He continued, "Cooperative Education makes it possible for students to continue their education on a full-

time basis while they participate in job roles which are related to their career objectives. We are encouraging business and industry in the greater Middlesex County area to join our team."

Firms that provide this worthwhile experience have the benefit of qualified part-time workers who can be evaluated as potential full-time employees. The students who are presently involved in these kinds of experiences are making substantial contributions in their jobs on a part-time basis while they attend the College full time.

Interested parties are encouraged to contact Dr. Kalugin at the College to obtain additional information.

Volunteers Needed!

The George Street Playhouse is looking for volunteers who are available to usher during performances and become involved in technical work, including painting and carpentry. Anyone who is interested may call the Playhouse at 246-7717 or stop by daily from 10 AM to 5 PM. The George Street Playhouse is located at 414 George Street. Currently, the Playhouse is featuring COUNT DRACULA, which will play Thurs., Fri., and Sat. nights at 8:30 and Sun. nights at 7:30 till Feb. 14th. Midnight shows are scheduled for Feb. 7, 13 and 14. Student rates are available for all performances.

Jugglers to Clown Around

to be aired later this year.

Michael Moschen has juggled before audiences in New York, Chicago and San Francisco for the past eight years. He ranks as one of the country's most accomplished jugglers of torches, clubs and rings; his ball-juggling placed first in the 1975 International Jugglers Association World Championships, held this year in Youngstown, Ohio.

Penn Jillette is a Ringling Bros. and Barnum and Bailey Clown College graduate. He recently returned from Minnesota where he performed his knife and torch act

as principal juggler at the annual Renaissance Festival. He has also worked with Otrabanda, a federally endowed group which travels by raft down the Mississippi River, stopping to perform at small towns along the way.

There will be a juggling and clowning workshop for all interested students, faculty and staff at 2 PM in the Theatre.

The event is sponsored by CCPB Forum Committee and the Liberal Arts Division Council with cooperation from the Office of Community Services.

Wheelthrough OK For MCC

by Laurie Winnicki

A survey of all the buildings of MCC was conducted by the Social and Rehabilitation Services of MCC. The program, Higher Education Accessibility Project, was designed to see how accessible the buildings and facilities are to disabled students.

The program, sponsored by The Bureau of Education for the Handicapped, will be conducted throughout many colleges and Universities in the country. The results of the program will be published in a directory of colleges and

universities listing their accessibility characteristics and the special services provided for disabled students.

The project consisted of a "wheel-through," which allows a person, either an able-bodied person or a disabled person, to ride through, unaided, a building and locate any barriers that might interfere with a handicapped student.

Main Hall was one of the buildings surveyed. Dr. Karoly Nagy and Dr. Martin Pearlman of the Social and Rehabilitation Services, conducted the "wheel-through".

Dr. Gronquist, Dean of the Social and Rehabilitation Services, conducted the survey.

As Dr. Nagy and Dr. Pearlman proceeded through Main Hall, Dr. Gronquist completed a questionnaire, asking Dr. Nagy and Dr. Pearlman to perform certain tasks that a disabled person might come upon.

After examining Main Hall, the building seemed quite adaptable for handicapped people. Some of the obstacles that a disabled person might come across were found. Some pencil sharpeners were too high and the level of the drinking fountain seemed to pose a problem.

Letters To The Editor

Editor:

I must disagree with Mr. Szumowski's opinion on the Quinlan issue. I just can't see letting a terminally ill person go on living in agony. You call that living? They just exist.

"They shoot horses don't they" seems to be putting it a little too strong. I'm simply saying that we should let dying people go peacefully. I can see Mr. Szumowski's point of keeping the patient alive if only we had a cure for him.

Mr. Szumowski said something about "scientific progress solving the mysteries of disease and death". Stop dreaming, Mr. Szumowski. This is the 20th century, not the 25th. Surely you don't expect to live forever. We all got to go sometime. I don't want to hang around suffering in my bed, waiting for some "scientific progress" to come my way.

So instead of asking 6 healthy students what they think of this, ask some terminally ill people. Yes, go ahead and ask them whether or not terminally ill people should be allowed to die peacefully. Ask the people who live through "scientific progress" every day. Then print your results. It is easy for healthy people to agree with you. But how would you think if the shoe was on the other foot? Remember: It is easy to ignore the rain if you have a raincoat.

William Matey
Concert Comment

Editor:

I enjoyed the Buzzy Linhart/Aztec Two Step concert immensely. On stage were Buzzy Linhart and Aztec Two Step. In the audience were Buzzy Linhart fans, Aztec Two

Step fans and a Quo Vadis reporter.

It doesn't surprise me that there were no fans of either act on the Quo Vadis staff, but it does surprise me that the person who covered the concert did not first familiarize themselves with the music. Although the article captured the mood of the audience quite well, it failed, due to a lack of research, in capturing what created that mood.

Michael Brady

Understaffed
and Overcrowded

Editor:

Mr. Alrujta erroneously states in his letter of December 18, 1975 that the library staff "allows" and "condones" the noise in the upper level of the library, and that

the solution is simple: throw out the offenders. Perhaps he has never read the signs, or he has never heard us admonish noisy students, even asking them to leave. College students should be mature enough to have consideration for others. But he may be right, we may indeed need someone to run around and say "sh" evicting those who will not comply. During peak periods when the library is fullest and noisiest, and an understaffed library is most occupied with helping students, we will welcome Mr. Alrujta's services, to assist in enforcing the rules, for free of course.

Jane D. Posselt

Many Thanks

Editor:

As I didn't have the opportunity to personally say good-bye to my many teachers I have had during the past two years at MCC, I am taking this opportunity to do so. I wish to thank them, not only for their aid, but also for their interest and encouragement. MCC is great for giving anyone a chance, a second opportunity, particularly for the older student, but it's the teachers who count. They go out of their way to help a student. I only hope that I will find the same kind of encouragement and that I will enjoy my courses as much at Douglass. Again, thank you.

Sincerely,
Isabel Rebori

Dear Editor,

At the beginning of the semester Marketing Art and Design students were told of all the equipment we had to purchase. A camera, costing at least one hundred dollars or more; photographic paper, at about five dollars per twenty five sheets; camera attachments; lab equipment, such as a developing tank, spot tone and brushes, and project materials like mat board and Dry-Mount Tissue.

Why were we told so late? Not only with photographic equipment but with Art equipment also. Why weren't

we told over the summer so we could have bought some of it gradually instead of all at once in a rush? If we were told in the summer we could have gotten most of the equipment and would have been able to start to work the first week of the semester instead of waiting till all the necessary equipment was purchased. Practically no one had the equipment needed and we couldn't work for about a week or two.

I think things would run smoothly if students were notified before hand of what equipment they will need for the particular course. The list of books were given a few weeks before the semester, why couldn't the equipment be listed along with it? It would save confusion for the students and make it possible for work to start on time.

Name Withheld By Request.

Capoor Appointed Director of Institutional Research

Edison, New Jersey, January 26, 1976 — The Board of Trustees of Middlesex County College, Edison, has announced the appointment of Dr. Madan Capoor, of Tenafly, to the position of Director of Institutional Research effective April 5, 1976. Dr. Capoor received his Bachelor of Arts degree in Economics, History, and English Literature and his Master of Arts degree in English Literature from Agra University, India; an additional Master of Arts degree in English and a Ph.D in Higher Education with specialization in Institutional Research from New York University.

The newly appointed director is presently working as Assistant Director of Institutional Research at Bronx Community College, a leading community college affiliated to the City University of New York where he has been employed for the past four years. The Bronx Community College was selected by the Fund for the Improvement of Post-Secondary Education of

H.E.W. as a resource institution for information on research and instructional methods to deal with disadvantaged students. The College also received a major grant from the same body to conduct research on these students. Dr. Capoor was also designated and carried out several research projects, including: Faculty Productivity Study, Evaluation of the Revision of Liberal Arts Program, Evaluation of Remediation Programs, Evaluation of Cooperative Work-study Program, Evaluation of Placement Procedures in Engineering Technology, Comparison of Once-a-week vs. Twice-a-week Classes, and Student Opinion Survey. He is conversant with advanced techniques and computer programs for statistical analysis.

His responsibilities at the College will include the coordination of research activities. He will direct and coordinate the collection and analysis of data and prepare a report designed to facilitate the operations and decision-

making within the College. He will coordinate the preparation of operating reports, feasibility studies, evaluative and analytic studies, management information systems, special and cyclical studies of student, faculty, staff, curriculums, and other College programs, including the design and evaluation of experimental and innovative instructional programs. Other responsibilities will include to establish procedures and work cooperatively with faculty and staff in the preparation and design of grant proposals, advise faculty and staff regarding scholarly and academic research studies, and participate in research activities outside the College.

Dr. Capoor, who is married and the father of two children, is a recipient of Fulbright and Smith-Mundt grants, and tuition scholarship at New University. He is a member of the Association for Institutional Research and The American Educational Research Association.

TV/Newspaper Course Keeps With '76

Middlesex County College, Edison, in cooperation with THE NEWS TRIBUNE, Woodbridge, will offer readers a three-credit course titled "The American Issues Forum (Part II)" beginning in January. Part I of this course is NOT a prerequisite for Part II. The central theme of this course, which will be printed in eighteen articles, will be the molding of American values. The molding of American values concentrates on the ways in which American values and assumptions about national character can be tested by a people's activities. It examines phases of America at work and at leisure, the nation's self-conceived role in the international scene, and the social institutions which

have directed and shaped American character. The course will seek to develop new understandings of the problems and realities of contemporary America.

Another three-credit course, "The Adams Chronicles," a thirteen (one) hour program series, appeared on WNET/13 and UHF Channels 23, 50, 52, and 58 beginning Thursday, January 22 at 9:00 PM and was repeated on Friday at 12:00 noon. "The Adams Chronicles" is a study of a family who helped design, preserve, and expand a nation. The offices that John Adams and his descendants held parallel the history of the nation: a delegate to the First and Second Continental Congresses, Commissioner to France during the

Revolutionary War, first American Minister to Great Britain, first Vice-President, second President, Minister to Prussia and Russia, Secretary of State, sixth President, member of the House of Representatives, Minister to Great Britain during the Civil War, officers in the Union Army, financiers and historians.

Woven among events that shaped the history of an emerging nation are events that formulated a family's personal legacy: John and Abigail's lifetime partnership, one of history's great love stories; John Quincy's fatal heart attack on the floor of the House, and the deaths of John Adams and Thomas Jefferson within hours of each other on the 50th

anniversary of the Declaration of Independence; broken relationships and reconciliations; untimely deaths of children and wives; the challenge of succeeding generations of their ancestors' record of achievement.

Either course may be used as a Humanities elective toward an Associates Degree. Both the course by newspaper and by television will require the student to attend four lectures on the Middlesex County College campus. A final examination will be administered for each course. Registration will be accepted prior to the first program or article. Information concerning textbooks and the required class meetings will be mailed to participants after registration.

Rec. Tourn. Winners Going To Regionals

Middlesex Community College recreation tournament is going to the ACU regionals. Sending along mighty fierce competition to meet those others community colleges and those two and four year private colleges.

The yearly tournament is sponsored by the Association of College Unions International Recreation Tournament. This years match will be held at Rider College Trenton N.J. February 13, 14 and 15.

From Middlesex and representing the table soccer title there is Tony Arcuri and Vito M. Chiricella. Shooting the pockets and handling a good stick, John Howard will battle for a good break in the billiards tournament. On the side of the paddles we will be represented by Peter Yutko in the ping pong singles and to

double the momentum and competition not alone the speed Joseph Osamor and Engenio Valentino Jr. will be wacking for the title in the ping pong doubles. Patience and concentration is this games mood as Barry Kanig uses the mental and not the physical aspects of the body as he enters the chess tournament.

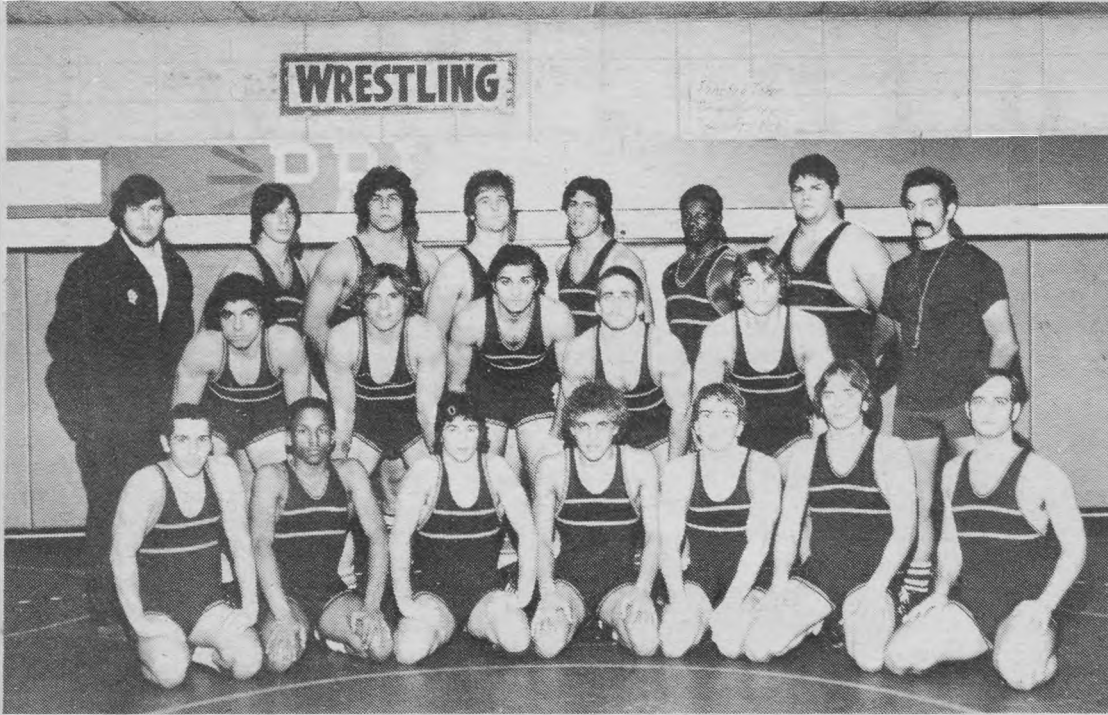

NOTICE

Applications for Intramural Basketball are available on the bulletin board in the front lobby of the gymnasium or Rm. 120-gymnasium.

Harriers Open Season

MCC opens the 1976 indoor track season on Saturday, January 24th, at Essex Community College, Maryland. The Colts will be led by returning seniors: Ray Cerankowski, Bob Edmonds, Glenn Odato, Horace Manley, Phil Bajulski, Bob Hartwyk, and Curt Fogas.

Ray Cerankowski (Sayreville H.S. graduate) competed in the National Cross-country meet at Rochester, Minn. this past November, placing 26th in a field of 230 runners. Cerankowski who holds the New Jersey State Jr. College record for the mile run, with the time of 4:17, has also run outstanding times in the 2 mile (9:23) and 3 mile (14:28) which has given him National recognition.

Horace Manley (Dickinson H.S., Jersey City) is a returning long jumper, who placed 6th in the nation with a 23 ft. jump.

Bobby Edmonds (Woodbridge H.S.) is a 13'6" polevaulter who was a first place finisher in Region 19 competition last year and is a promising candidate for national recognition.

Coach Joe Schlegel sees all three as excellent candidates for the Nationals to be held in Columbia, Missouri in early March.

Glenn Odato (Highland Park H.S.) and Phil Bajulski (Woodbridge H.S.) will highlight the mile relay team along with another senior, Bob Hartwyk (Vailsburg, Newark), and it is expected that two freshmen will duel for the coveted fourth spot. They are Rich Drake (Piscataway H.S.) and Rich Mowszan (Carteret H.S.), all are looking to break the 3:25 mark. Bill Taylor (Edison H.S.), Glenn Odato, Rich Mowszan, and Rich Drake will make up the 2 mile relay team. Curt Fogas (Edison H.S.) will be a dominant figure as a senior competitor in the 1000 yd. run.

The 2 mile relay team consisting of all county half milers, Bill Taylor, Rich Drake, Glenn Odato and Rich Mowszan are aiming to break the eight minute mark with hopes of obtaining national recognition.

Coach Schlegel is optimistic that his team will repeat their 2nd place finish of last year in

the Regional Meet. After the regionals, the national meet will be attended by those trackmen who qualify by performance during the season or 1st and 2nd place in the regionals.

Coach Schlegel sees a number of outstanding freshmen helping considerably, Jay Stevenson (Edison H.S. All Conference Hurdler), Jim Lee 13' pole vaulter from Edison, Luther Foy sprinter from New Brunswick, and Prentice Bailey sprinter from Asbury Park, Jim Burns (880) and Mark Kolibas (440) both of Carteret, Donald Stewart of Lincoln, Jersey City (880), Ken Dillon (mile - 2 miles) St. Thomas Aquinas, Mike Kelly (Edison), George Litchko (Middlesex), Stan Socha (New Brunswick), and John Infusino (J.P. Stevens) all heaving the 16 lb. shot. These young men look to be a promising squad, eager to dominate the New Jersey and metropolitan track scene.

Coach Schlegel will work extensively with his relay teams and build his squad around them hoping to instill a team spirit that will continue for the entire season and carry through to the nationals.

SUMMER JOBS

Guys and gals needed for summer employment at national parks, private camps, dude ranches, and resorts throughout the nation. Over 50,000 students aided each year. For FREE information on student assistance program send self-addressed STAMPED envelope to Opportunity Research, Dept. SJO, 55 Flathead Drive, Kalispell, MT 59901. Many good jobs are available!

APPLICANTS MUST APPLY EARLY.

TRAVEL TIPS TO MEXICO

With vacation time fast approaching, many of you will no doubt be traveling to Mexico. Some of you might even be coming back. Here are some helpful hints.

1. A man on a burro always has the right of way, unless he appears to be a weakling.
2. In local cantinas, pouring a shot of Cuervo down a man's collar is not thought to be humorous.
3. Falling onto a cactus, even an actual Cuervo cactus, can be a sticky proposition.
4. It is tough to find hamburger rolls in the smaller towns; it's best to bring your own.

JOSE CUERVO® TEQUILA. 80 PROOF. IMPORTED AND BOTTLED BY ©1975, HEUBLEIN, INC., HARTFORD, CONN.

BAN LIFTED!

IN CALIFORNIA

"... After viewing the film the Court finds ... The availability of the film to the general public ... could so increase the difficulty of selecting a fair and impartial jury that there is a high probability that defendant Lynette Alice Fromme could be denied her right to both a fair and speedy trial."

—The Honorable T.J. MacBride U.S. District Judge 10-16-75
